Subject: Request for Permanent Confidentiality

To whom it may concern:

In accordance with 47CFR Section 0.457 and Section 0.459 pertaining to confidential material, we hereby request to hold permanently confidential all information contained within the below identified exhibits/document categories submitted pursuant to radio equipment certification requirements for FCC ID: XFU-18541001

- 1. Block Diagrams
- 2. Operation Description/Theory of Operation
- 3. Schematics
- 4. Parts Lists
- 5. Part Placement Diagrams
- 6. Internal Photos

The above material contains trade secrets and proprietary information as specified by 47CFR 0.457(d) and technical data, which would customarily be guarded from competitors. The device is potted, and the internal features will not be visible to the customer. These units have very complex, internal, mechanical structure, and during the potting process, all of the structure gets locked into place. The only manner of removal of the potting material will damage the unit including the internal boards. No useful information about the assembly can be gathered. The product is designed for industrial applications and is not available commercially. The public disclosure of this information might be harmful to our company and provide unjustified benefits to our competitors, and therefore we do not want these documents to be accessible to the general public.

Sincerely,

Jonya Woods
